

Apply to Participate in the
Children and Youth with
Special Health Care Needs
National Research Network

ADVISORY COMMITTEE

We're interested in hearing from children and youth with special health care needs (CYSHCN) and anyone who supports them.

Whether you're a young adult with special health care needs, a caregiver, a clinician, or you're employed in the CYSHCN field, we want to hear from you! Apply to participate in our Advisory Committee to help our researchers create studies that improve the health care system for CYSHCN and their families.

What you need to know:

- Quarterly Zoom meetings with total time commitment of ~12 hours/year.
- Lived experience partners (i.e., those who are or care for someone with a special health care need) receive **\$600/year for participating**.
- Clinicians and those otherwise employed in the CYSHCN field are invited to participate as volunteers.
- Experience in one of the following areas is helpful but not required: caregiving, dissemination, research, policy work, health care financing, program development, clinical care for CYSHCN, legal skills, public relations, or communications.

Deadline for applications is August 10, 2023.
