## BECOME A MENTOR

This project will use the peer-to-peer model to develop resources to support families of children with T1D through parent support mentor training and recruitment.

## NEW TO T1D?

Parent support is available through phone or video chat to connect with other T1D families with lived experience.

## Let's build a community of T1D support!

Department of Health is partnering with PAVE (Washington State's Family to Family Health Information Center) and Parent to Parent (P2P) to provide statewide support opportunities for families of children with T1D.
